RR, RURAL RESIDENTIAL DISTRICT

Section 13.01 -- STATEMENT OF PURPOSE

The Rural Residential District is intended to provide areas of the Township for orderly low-density residential growth, continued agricultural uses, and other compatible uses that typically occupy large open land areas. The standards in this district are intended to assure that permitted uses peacefully coexist in a low-density setting, while preserving the rural-like features and character of certain portions of the Township. Low-density residential development is further intended to protect the public health in areas where it is not likely that public water and sewer services will be provided.

It is further the intent of this District to permit a limited range of residentially-related uses, and to prohibit multiple family, office, business, commercial, industrial and other uses that would interfere with the quality of residential life in this district.

It is intended that developments in this district be designed to preserve significant natural features and promote public health, safety, and welfare. Preservation of open space, protection of flood prone areas, protection of wetlands, woodlands, and groundwater recharge areas, and preservation of other natural features is encouraged, consistent with state law. *(revised 10/1/96, 2/3/98)*
